## An Introduction to our Program

When the Sabre Minority Executive Training Program began five years ago it was done in a manner as to respect the cultural differences of our great, expanding company. As a leader in printing products, we understand the color palette of our inks as well as in our own company. The program does not discriminate on the basis of race/ethnicity, color, national origin, sex, disability, veteran status, or age in the administration of any of its employment, educational programs, admissions policies, scholarship and loan programs, athletics, recreational, and other school-administered programs.

Sabre has designated the Director of its Office of Institutional Equity to handle all inquiries regarding its efforts to comply with and carry out its responsibilities under Title IX and under Section 504 of the Rehabilitation Act of 1973.

At Sabre we pride ourselves on moving forward, on moving ahead, and making the most of our company and its employees. Through this program we are able to reach out to our brightest stars and make the most of our vast, incredible company
